Dear Joshua:

We intend to give a lecture and demonstration on biochemical variation of *E. coli*. Since you and Tatum are prime references in this field I thought that we might be able to obtain some cultures (three preferably) of *E. coli* exhibiting biochemical variation. If possible could you also send reprints of your work in this field. We intend to give this lecture the week of November 23rd.

The last time I saw you was at the AAAS meeting (Boston) so I presume I'll see you in New York in December.

Sincerely yours,

Norman Kretchmer
